Subject: Opposition to SB 16

To the members of the Judiciary Committee,

I strongly urge you to vote NO on proposed Senate Bill 16.

This bill will have no impact on crime. It will only hurt the law abiding citizen. Assault weapons are rarely ever used in committing crimes. The firearms that these criminals are obtaining firearms from either stealing from individuals, businesses or purchasing them illegally off the street. They are not going into a gun store and filling out the proper paperwork and background checks. Connecticut is often said to be "One of the safest States in the country". If thats the case then what is the reasoning for more unnecessary gun control.

Gun Control doe not work. If gun control works then why is it every single legislative session we are constantly talking about ways to ban guns and make it harder for law abiding citizens to purchase them?

I also urge you to..

Oppose Senate Bill 5416: An Act Concerning the Bulk Purchasing of handguns

Support SB 388: An Act Concerning the defense of a persons dwelling, place of work or motor vehicle

Support HB 5415: An Act Concerning the transfer of Assault weapons and High Capacity Magazines

Support HB 5412: An Act Concerning the duty to retreat in a religious house of worship
